

Can you save the world??
Not sure...but this might be a start

GIS Applications

Learn to apply your GIS skills to real-world problems

GE500 ZA GIS Applications online Fall 2008

Prerequisite: ES 551 Computer Mapping
or equivalent knowledge

This course will intersperse reading of case studies
with practical exercises putting GIS to work,
and culminate in a major project where
you analyze a problem with GIS

Students will use ESRI software that accompanies
one of the required texts
